Casamento, Jo	20 Gloucester Street, West Launceston

Name:	David Hunnerup
Qualifications:	BSW, Licentiate in Theology, Grad Cert Mediation (Fam)
Areas of expertise/specialist knowledge and interests:	General lifespan and relationship Counselling and Mediation; Mental Health Counselling, Mindfulness integrated CBT, social work counselling practice in NGOs and private practice.
Supervision qualifications and experience:	Supervised Social Work students for Anglicare and through the Employer Assistance Programme
Comments:	Counselling as part of professional life since 1980. Educated in theology, with major in counselling practice. Early training in Satir family therapy. Advanced Couples Therapy training in South Australia in 1986, with strong systems theory base (as well as Michael White training input as early/nascent narrative therapy). After BSW education, a counsellor with R.A. and Centacare. Family counselling and mediation with Anglicare for 10 years. Family Law mediation. Workplace and other mediation. Supportive coaching for management conflict. Most recent paradigm for practice is Mindfulness integrated CBT. Familiarity with narrative, solutions focus, structural and systems, and CBT.
Region location of venue for supervision:	The Blue Door Counselling Practice – Launceston and Northern Tasmania

Contact email:	Email attached to website: www.thebluedoor.com.au

Name:	Susan Igglesden
Qualifications:	Bachelor of Social Work (1984), Mental Health Social Worker accreditation (AASW 2007)
Areas of expertise/specialist knowledge and interests:	Mental Health, Education, Local Government and Employee Assistance Program (Counselling). I currently work in private practice, with sessional contracts to an EAP provider and Veterans' Affairs.
Supervision qualifications and experience:	<p>Supervisor University and TAFE students, supervised volunteers and regularly engaged in formal and peer supervision. Through my EAP/private practice work I provide professional supervision sessions for Social Workers and other workers in the field.</p> <p>I have counselling experience with children, adolescents and adults in mental health (especially anxiety and depression), grief and loss, stress management, parenting, trauma, self esteem, life transition and career guidance. I have also worked in community development, group work, case management, advocacy, committee coordination, community projects and promotions, consultations and evaluations, and submissions.</p>
Comments:	<p>My Social Work practice is guided by my inherent belief in social justice and my personal creativity and pragmatic approach. I often use Strengths Based, Solution Focussed, Narrative, Mindfulness and Cognitive approaches and enjoy exploring the use of language and images and their effect on thinking and feeling. I am accustomed to working in brief time frames with clients so I tend to be quite pragmatic and goal-focussed.</p> <p>I believe that supervision, while often a chance to debrief on a personal level, should always include a structured professional focus on how to continually improve one's practice through honest and open discussion and goal setting.</p>

Name:	Christine Wever
Qualifications:	BWS with Distinction, 1988; Master of Social Work Practice, 2005
Areas of expertise/specialist knowledge and interests:	Narrative Therapy; Generalist Counselling; Conferencing
Supervision qualifications and experience:	19 years of Social Work supervision; 12 years of teaching Narrative Therapy
Comments	My supervision work is formed by the principles of Narrative Therapy. The work involves identifying workers' preferred ways of working and storying the histories of their hopes, dreams and visions for their work and the values and principles that inform these. The work also involves externalising and planning ways to address the contextual factors that get in the way of this preferred practice, and the identification of the places workers come up against the limits of their knowledge and skills, and ideas for developing these. An exciting aspect of a narrative type of supervision is storying examples of great practice and developing new knowledge and theory from this
