

AASW (NSW) – SUPERVISORS’ REGISTER – 2012

Introduction

The AASW (NSW) Supervisors’ Register is provided as a resource to identify individual social workers who provide a supervision service. The information presented in the register is provided to AASW (NSW) by the social workers who request listing in the register. The AASW (NSW) confirms accreditation and membership status of the social worker at the time of listing and at periodic review. It is advised that independent references regarding credentials and reputation of the listed member’s skills and training be independently obtained.

There are some supervisors who have opted not to have their profile published on our website so please contact the NSW Branch office for their details by phoning 02 8394 9850 or email info@aaswnsw.com.au

Contact the supervisors directly for information on fees.

DISCLAIMER

The Australian Association of Social Workers Ltd is not responsible for verification of a supervisor’s stated qualifications or experience, other than confirming their status as a Continuing Professional Development (CPD) accredited member of the AASW.
