Criterion 3: Supervision

Applicants for re-instatement should be able to show that their practice has been formally supervised, in line with the [AASW Supervision Standards 2014](#). Generally, supervisors should have a higher level of practice experience than their supervisees, and should have some training in supervision. For the purposes of re-instatement of ACSW status, the supervisor or employer does not necessarily need to have a social work background, but should have provided the applicant/supervisee with appraisal and assessment in relation to practice in a clinical social work field.

As per the Continuing Professional Development (CPD) Policy, you must have undertaken at least 10 hours of supervision within the past 12 months.

Have you undertaken at least 10 hours of supervision within the past 12 months? Yes OR No

* If no, you will need to meet the supervision requirements before proceeding to submit this application.

Criterion 4: Continuing Professional Development

Applicants for re-instatement of ACSW status need to be able to demonstrate the completion of CPD requirements; these CPD requirements must also be completed to maintain accreditation status. For further information regarding the CPD requirements please click [here](#).

Have you recorded the professional development you have engaged in for the financial year using 'My CPD Record' and have you met the Accredited Clinical Social Worker CPD requirements? Yes OR No

*If no, you will need to meet the CPD requirements before proceeding to submit this application.

Criterion 5: Demonstrated clinical social work practice

If you have previously held ACSW accreditation, you are automatically deemed as meeting this criterion. You do not need to re-submit responses to the case studies.

Criterion 6: Referee statement

All applicants for re-instatement of ACSW accreditation are required to submit a [Referee Statement Form](#) completed by an employer or supervisor either past or present. It is necessary for the referee to confirm the claims made by the applicant. The primary purpose of the referee statement is to seek information about the applicant's skills and competencies in practice. The referee statement also needs to verify that you have met your Recency of Practice Hours in a clinical related position nominated in Criterion 2 of this application. If one employer/supervisor is not able to verify your work, please arrange for an additional employer/supervisor to complete a referee statement document.
