Level 7, Mineral House, 41 George Street
BRISBANE QLD 4000

Dear Ms Frecklington,

The Australian Association of Social Workers (AASW) is the professional body representing over 13,000 social workers throughout Australia. We set the benchmark for professional education and practice in social work and have a strong voice on matters of social inclusion, social justice, human rights and issues that impact on the quality of life of all Australians. The Queensland and North Queensland branches represent more than 2,700 members across the state. Our members are employed in a range of roles in government departments, non-government organisations and in private practice in areas including child protection, family violence, health, mental health, justice, housing and homelessness, disability, aged care along with other disadvantaged individuals, families and communities.

Social workers aim to enhance the quality of life of every member of society and empower them to develop their full potential. We believe that everyone has the right to an environment (social, economic and natural) in which it is possible to flourish and thrive.

A state election is a pivotal opportunity for a government to create the conditions under which people will pursue healthy, meaningful and rewarding lives. As social workers, we measure the success of any government based on the social impact of their policies.

On behalf of our members we are seeking your party's response to the following questions. We will share your response with our members to assist in informing their voting decision in the election.

- If your party forms a government, what is your commitment to providing Department of Child Safety, Youth and Women with the appropriate resources, including workload ratios to achieve the wellbeing and safety of children and young people?

5. Homelessness

- If your party forms a government, what are your plans to address homelessness and the shortage of affordable housing supply in QLD?
- If your party forms a government, what is your commitment to ensure the inclusivity of current housing schemes so that the needs of people of all backgrounds can be met?

6. Reconciliation
