To Ms Beaumont,

Re: 2020 Queensland State Election commitments

I write to pass on my thanks for your correspondence regarding your interests and priorities ahead of the 2020 Queensland State Election this month.

I have been immensely proud to represent the electorate of Traeger and liaise with all levels of government, organisations and individuals to work together towards our goals. I hope I receive the honour of continuing to serve my electorate at the election.

Please find attached my key priorities to resuscitate the local economy and build a safer and stronger future for constituents, with particular focus on health, crime, living affordability and improving outcomes for Indigenous communities. I am committed to endeavouring to acknowledge and address a wide range of issues affecting Traeger and believe everyone should be heard in helping shape the future of North Queensland and beyond.

While we appreciate the AASW is seeking commitments in relation to your Election Policy Platform 2020, we will not be able to provide specific responses. Katter's Australian Party is a minor party with a small number of sitting MPs, candidates and resources, and as such, it does not take up policy positions for all organisations.

While the upcoming state election and focus on North Queensland takes immediate priority, I am passionate about representing the state-wide vision of the KAP as party leader. This encompasses a broad range of interests and I am committed to working cohesively to realise our goals.

Once again, thank you for taking the time to contact our office and share your input. I look forward to any opportunity to work with you into the future.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Robbie Katter".
