Purpose of the Advanced Search Directories

This document explains how members of the Australian Association of Social Workers can create listings on the publicly available AASW Advanced Search Directory. This member benefit is useful for social workers who wish to advertise their:

- Private social work services for clients/agencies with clients; or
- Private supervisory services to other professionals

Creating a listing/s in the Advanced Search Directory is optional. It is a free service for members and a great way to market and promote social work services to members of the general public and to other colleagues/professionals.

Find a supervisor Advanced Search Directory

The AASW launched a Find a supervisor Advanced Search Directory in July 2014.

The Find a supervisor Advanced Search Directory replaced the previous Branch supervisor registers, which have been removed from the AASW website. The Find a supervisor Advanced Search Directory will offer members more streamlined and flexible ways of advertising the supervisory services they provide, including the option to advertise multiple locations and modes of delivery (such as Skype and other online options) as well as their different areas of practice expertise.

In the interests of ensuring high standards and ensuring that those providing professional social work supervision have the necessary skills and experience; and commit to ongoing professional development, there are specific requirements of members wishing to create a supervisor directory listing

To include a listing on Find a supervisor, members need to have met the minimum continuing professional development requirements for the previous financial year and therefore be CPD accredited members; have registered for either the [Accredited Social Worker](#) or the [Accredited Mental Health Social Worker](#) Trade Mark; meet the Standards for Supervisors as set out in the [AASW Supervision Standards 2014](#); and confirm that they are not currently undertaking an ethics penalty as part of the Ethics Complaints Management Process.

For information about the CPD requirements please click [here](#) or for information about registering for an Accredited Trade Mark please click [here](#).

This is a great opportunity for you to advertise and promote your social work services to:

- Members of the general public seeking social work services

Having located a social worker or supervisor in either directory, the visitor can complete a contact form which will directly email you (using the email address specified in your AASW member details) with an enquiry.

Creating a directory listing

As an AASW member, you can register to be listed in the '**Find a social worker**' and/or the '**Find a Supervisor**' directories. Listings are free and you can have multiple listings for different practice addresses. Your listing will be valid for as long as you are a financial member of AASW.

Within each listing form there are fields you need to complete to be added to the '**Find a social worker**' directory (located under the *Information for the community* tab on the AASW website), as well as fields you need to complete in order to be added to the 'Find a Supervisor' Directory (located under the *Practitioner resources* tab on the AASW website). The general information you enter for each listing, such as your name; contact details; practice location etc., will be included for both the 'Find a social worker' and 'Find a supervisor' directories.
